## Skills

---

Python | JavaScript | Wordpress | ReactJs | CSS | Plugins | Bootstrap | Adobe XD | E-commerce | Elementor | PHP | Html

## Experience

---

August 2022 - December 2023

### **WMI Innovative Solutions Pvt Ltd, Vashi** - *Web Developer*

- I optimized the UI load times and performance of a website by fixing bugs, which resulted in an 80% improvement. I maintained a WordPress website and implemented changes as per the client's requirements. I designed the website in WordPress using HTML, CSS, and JavaScript, ensuring compatibility for both mobile and desktop versions across all platforms.
- Furthermore, I worked with a team of eight web developers and provided end-to-end solutions for five clients. I maintained the back-end of the website using PHP and updated the c-panel regularly to resolve errors daily. Additionally, I created a landing page for the client with a simple design and uploaded it to the c-panel.
- I collaborated with the SEO team to implement changes to the website's content and ensured precise execution of their suggestions. My professionalism and expertise resulted in optimal website performance, meeting the client's expectations.

March 2022- July 2022

### **Techsoyd Pvt Ltd, Nerul** - *Web Developer*

- I have experience working with WordPress themes from Themeforest, including uploading themes and making changes to content and images to meet clients' requirements. I have also utilized platforms like Adobe Photoshop to compress images and convert them to other formats, which improves website speed. Additionally, I have used plugins such as Elementor and WPBakery to make style adjustments to basic website themes.
- In terms of e-commerce, I am currently learning about plugins that help build e-commerce websites. This includes adding products to websites and integrating payment gateways like Razorpay. Furthermore, I am exploring shipping plugins, which ensure prompt delivery of products to customers.
- Furthermore, I am developing my communication skills by learning how to effectively engage with clients about their projects. Building a healthy relationship with clients aids me in acquiring a comprehensive understanding of their website needs.

## Education

---

July 2019 - February 2022

**PILLAI COLLEGE OF ARTS, COMMERCE & SCIENCE, Panvel-** Bachelor of Science in Information Technology

## Certifications

---

July 2020 - August 2020

**HTML, CSS, and JavaScript for Web Developers** - Johns Hopkins University

May 2020 - June 2020

**Crash Course on Python** - Google

## Projects

---

### Travel Tour Website

[View In Github](#)

- I created this landing page using React JS and Vite. It was a bit tricky at first, but once I got the hang of it, I figured out how to put together all the different pieces into a cool website. I found some great tools that helped me out along the way too!
- The project confidently employed Swiper js and Bootstrap, utilizing CSS animation through code for an optimal user experience.
- This project helped me learn how to create navigation and use Swiper.js, install the React-icons package, and understand the basics of React.js.

### Travel Tour Website

[View In Github](#)

- I created this landing page using Next JS by understanding the basics of Next JS and how to utilize the layout for the project and component with navigation in the website and also learning about the basics for tailwind CSS and typescript.
- The project confidently utilized TypeScript, Tailwind CSS, and Framer Motion to create animations on the website.
-
