Skills

Python | JavaScript | Wordpress | ReactJs | CSS | Plugins | Bootstrap | Adobe XD | E-commerce | Elementor | PHP | Html

Experience

August 2022 - December 2023

WMI Innovative Solutions Pvt Ltd, Vashi – *Web Developer*

- I optimized the UI load times and performance of a website by fixing bugs, which resulted in an 80% improvement. I maintained a WordPress website and implemented changes as per the client's requirements. I designed the website in WordPress using HTML, CSS, and JavaScript, ensuring compatibility for both mobile and desktop versions across all platforms.
- Furthermore, I worked with a team of eight web developers and provided end-to-end solutions for five clients. I maintained the back-end of the website using PHP and updated the c-panel regularly to resolve errors on a daily basis. Additionally, I created a landing page for the client with a simple design and uploaded it to the c-panel.
- I collaborated with the SEO team to implement changes to the website's content and ensured precise execution of their suggestions. My professionalism and expertise resulted in optimal website performance, meeting the client's expectations.

March 2022- July 2022

Techsoyd Pvt Ltd, Nerul – *Web Developer*

- I have experience working with WordPress themes from Themeforest, including uploading themes and making changes to content and images to meet clients' requirements. I have also utilized platforms like Adobe Photoshop to compress images and convert them to other formats, which improves website speed. Additionally, I have used plugins such as Elementor and WPBakery to make style adjustments to basic website themes.
- In terms of e-commerce, I am currently learning about plugins that help build e-commerce websites. This includes adding products to websites and integrating payment gateways like Razorpay. Furthermore, I am exploring shipping plugins, which ensure prompt delivery of products to customers.
- Furthermore, I am developing my communication skills by learning how to effectively engage with clients about their projects. Building a healthy relationship with clients aids me in acquiring a comprehensive understanding of their website needs.

Education

July 2019 - February 2022

PILLAI COLLEGE OF ARTS, COMMERCE & SCIENCE, Panvel– Bachelor of Science in Information Technology

Certifications

July 2020 - August 2020

HTML, CSS, and JavaScript for Web Developers – Johns Hopkins University   **View Credentials**

Upon completion of this course, I have acquired a fundamental understanding of HTML, CSS, and JavaScript, which has significantly contributed to my knowledge of website development. The course has equipped me with the necessary skills to design responsive websites and effectively utilize the browser for development purposes. Overall, the course has been instrumental in advancing my proficiency in web development.

May 2020 - June 2020

Crash Course on Python – Google   **View Credentials**

During the course, I was acquainted with the fundamentals of Python programming. Moreover, I received invaluable guidance, which proved instrumental in the successful completion of my college project.

Projects

WordPress – *Web Developer*
